

Assistive Technology Specialist

Description:

Are you a team player who enjoys problem solving and helping others? Access Technologies, Inc. is a dynamic statewide company that is growing, and currently seeking a full time Assistive Technology Specialist to JOIN OUR TEAM.

We have a great product -- *we provide independence to Oregonians, throughout their home, work, school and recreational activities.* But what makes a company so great is the culture, high moral, and the endless hunger to help more individuals. Is this you?

About Our Company:

Access Technologies, Inc. is a non-profit organization whose mission is to assure that persons with disabilities in Oregon will be able to secure and effectively use assistive technologies.

Access Technologies, Inc., provides information concerning the functions of, access to, availability of, and funding for assistive technologies, which may allow individuals with disabilities the opportunity to more fully participate in society. Such activities are designed to impact immediate personal opportunities and larger provider, funding, and advocacy systems which will expand such opportunities in the future.

Our services are provided under grants, contracts and other funding.

About the Position:

Our Assistive Technology Specialists enjoy traveling throughout the State helping Oregonians of all ages identify and learn to use assistive technologies that will increase their independence at work, home, school, and during play activities. This energetic team also works with local and state agencies, school districts and employers to increase their awareness about how technology products and services reduce barriers to successful education and employment opportunities.

Our Specialists develop diverse skillsets that allow them to appropriately configure, install, uninstall, and troubleshoot a variety of assistive technologies, telecommunication devices, computer software and applications; assemble, deliver and setup office furniture including workstations and chairs, as well as prepare comprehensive, detailed reports, assessment findings, training services and price quotations for recommended accommodations.

Our Assistive Technology Specialists work towards acquiring their ATP certification.

DUTIES AND RESPONSIBILITIES

Training/Technical Assistance

- Develop, coordinate and conduct training on assistive technology devices and services, AT funding, policy and practices, Transition services, as well as IT and Telecommunication services, for local and state agency, business, educational, and community members.
- Coordinate and conduct assessments to determine appropriate assistive technology, telecommunication and ergonomic solutions for individuals with disabilities.
- Assist customers in resolving technical problems over the telephone.
- Set up demonstration lab, coordinate and conduct device demonstrations and Center tours as necessary, assist with coordination of equipment loan library.
- Assemble, deliver, and setup workstations, chairs, and additional office furniture.
- Configure, install, uninstall, and troubleshoot a variety of assistive technologies, telecommunication devices, computer software and applications.

Marketing/Sales

- Develop and implement marketing strategies. Demonstrate and sell assistive technology devices and services to existing and prospective businesses, service providers and consumers.
- Prepare comprehensive, detailed reports, assessment findings, training services as well as price quotations and proposals.
- Maintain record keeping system for project related activities.
- Drive company vehicle to provide client and conference services locally and statewide.
- Participate in technology related conferences and workshops.
- Performs other related duties as assigned.

Qualifications

Bachelor's degree or an equivalent level of education in related field (ie special education, rehabilitation, occupational/physical/speech therapy, rehabilitation engineering, instructional technology) and experience to meet the minimum qualifications of the position.

Demonstrated experience in the use of assistive technology, computer and other technology for individuals with disabilities may substitute for required education; report writing; and experience with recordkeeping systems.

The successful candidate enjoys working as a member of a team, as well as independently; is customer oriented with customer service skills; has excellent written and oral communication skills; has experience with recordkeeping systems; is familiar with computers and various types of adaptive equipment; has experience working with persons with varying degrees of ability; and has the ability to lift, twist, bend, stoop, and kneel, repetitively.
